**Bluetooth Speaker**

**QUEVO**AUDIO

Thank you for purchasing the Bluetooth Speaker, in this manual we will explain all you need to know to get up and running. Please read through the manual to know exactly how all of the functions work.

## **1.0 Notice**

Your new speaker is compatible with all devices with Bluetooth and many other devices that are compliant with Bluetooth Version 4.0. Make sure that your device has Bluetooth capability by visiting your manufacturer's website.

Do not keep the speaker on the maximum volume often, or this could hurt your hearing. We suggest you listen with 2/3 of the maximum volume, this not only lets you hear the perfect quality of music, but can also extend your speakers service life.

Avoid storage at high temperatures such as in hot vehicles or direct sunlight (storage at high temperatures can damage performance and reduce battery life).

Do not expose the speaker or any of its parts to rain or other liquids.

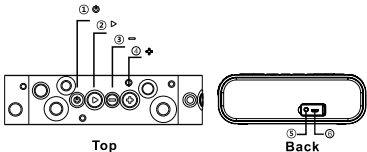

Always store the speaker with the Power OFF and make sure it is safely protected.

Please use 5v 1A to charge, for the speaker to be fully charged it takes 3-4 hours.

If the LED indicator doesn't light up when you turn on the speaker, please charge the speaker.

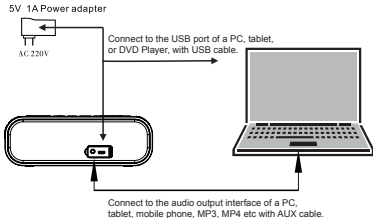

## 2.0 How to operate your speaker

### I. Function Instruction

- ① Power on/off (Hold Down)
- ② Play/Pause/Answer and End telephone call
